ABOUT JOSHUA JOHNSON

Joshua Johnson joined the CRC team in June 2019 as an Associate Broker with CRC Group's Nashville, Tennessee office, where he specializes in Commercial Transportation (more specifically, Trucking) and Inland Marine risks across the Southeast, Mid-Atlantic, and Midwest regions. He has access to multiple brokerage markets and an exclusive in-house Auto Liability binding authority program, with the ability to place preferred to distressed accounts. Josh and his team focus on local to long-haul motor carriers with 5-100 power unit fleets.

Josh earned a B.S. in Risk Management and Insurance from Appalachian State University before beginning his insurance career in 2019. Drawn to the industry due to college mentors and older friends in the business, he appreciates the countless opportunities for innovation, collaboration, and growth in the business. Josh is passionate about finding creative solutions for his clients, and working hard to produce sustainable, long term results through robust insurance products. Partners and colleagues alike depend on the transparency, clear communication, and sense of urgency he brings to every interaction, counting on his determination to get the job done.

An avid outdoorsman, Joshua loves living in the Nashville area. Outside the office you'll often find him hunting, fishing, or white-water rafting. He also finds a way to give back to the local community by volunteering to help those less fortunate.
